

On the sunbathed Black Sage Bench in British Columbia's Okanagan Valley, Phantom Creek Estates crafts exceptional wines from historic vineyards. We farm our estate vineyards across the Okanagan and Similkameen Valleys with a commitment to quality as well as the long-term health of our vines and community. We are certified organic and progressing towards biodynamic certification. We are, first and foremost, stewards of these renowned sites.

From the start, we have been guided by the long-term vision of being recognized as one of the leading family-owned wineries – both at home and abroad. Since our inaugural vintage in 2016, we have been humbled by the acclaim we've received from Jancis Robinson MW, Decanter, Anthony Gismondi, and John Szabo MS, among many others. It's a testament not only to the pedigree of our vineyards, but also to the entire team behind every wine.

We are seeking a winemaker who shares this team-based approach and thrives in a collaborative environment. They will have the opportunity to work alongside a committed, dedicated group, spanning winemaking, viticulture, and sales and marketing. They will also have the opportunity to work alongside renowned consultants Olivier Humbrecht MW and Phillipe Melka.

- Humbrecht, proprietor of Domaine Zind-Humbrecht in Alsace, France, guides our organic and biodynamic practices and has an integral role in our white winemaking program, which is centered around Pinot Gris and Riesling. Phantom Creek is Humbrecht's first and only winery consulting project.
- Melka consults for some of the most highly regarded properties in California and Washington. He plays an active part in our red winemaking program, focusing on Bordeaux varieties and Syrah. Phantom Creek is his first Canadian project.

Reporting to the CEO, the winemaker strategically and proactively leads all winemaking operations from the crushpad through to bottling. The winemaker is responsible for ensuring exceptional wine quality and is accountable for meeting business forecasts, production standards, and safety protocols. The winemaker will also be a spokesperson for the company at on- and off-site events and as part of our PR and media initiatives.

We are seeking a winemaker with at least 5 years of progressive organic and biodynamic winemaking experience as well as a degree in viticulture or oenology. The successful candidate will be a strong leader with impeccable integrity who can guide, listen, communicate, and coach their team to achieve business objectives. You will have high standards, a proven track record of successful wines, and the versatility to move smoothly from vineyard to board room to media event. You have an exceptional wine tasting palate, the drive, sense of humour, and adaptability needed to work in the South Okanagan climate.

If this sounds like you, please apply to Diana Thomas at dthomas@phantomcreekestates.com. All inquiries will be held in strictest confidence.
